CAN YOU HELP?

Case #78—Stephanie received a black lab mix dog from a family member who could no longer care for him. She is also feeding three cats that were abandoned by neighbors. She has placed several other stray cats but would like to keep these animals if they can be fixed. SNAP's cost to spay/neuter these four is \$270.

Case #79- Tabatha has been caring for an ill family member so at this time cannot work outside the home. Two dogs, a Pit Bull and a Pit mix, were dumped not far from her home. They have had a couple of litters and she needs to get these two dogs done as well as two adult puppies they could not place and are keeping. SNAP's cost to get these dogs done totals \$395.

Case #80-Tom has had two male dogs since they were pups, a Mastiff mix and a terrier mix. They both need to be neutered as they are both a couple of years old and having dominance issues with each other. Tom's wife is having some health issues and money is very tight. With three children, they haven't had the extra for the neutering. The two dogs will cost \$195 thru SNAP.

If you are able to help fix any of these animals, please send your donation to SNAP, PO Box 14354, Springfield, MO 65814. No amount is too small. It all adds up to do great things! You can specify which case you would like to contribute to. In the event the case you specify has already been helped by another caring donor, your contribution will be used to help a different but equally in-need pet owner. Thank you for your support!
